*Strategizing and Succeeding in an
Accountable World*

One thing is certain...change is inevitable. How we prepare, accept, and adjust to change determines our ability to survive and thrive, especially in today's shifting financial climate. Accountable Care Organizations focus on better coordination of patient care in order to both control costs and improve quality of care. No one component of this delivery system can work as effectively as all of the components working together. Alignment is a critical aspect to the success of an ACO. Ultimately, this program will provide an overview of the ACO regulations released by CMS. We will discuss current alignment trends, show how potential payment models will be constructed and long-term strategic decisions will be made, and review the opportunities and keys to success of an ACO.

Robert M. Burke, Esq.

Labor and Employment Update

Focus of this program will be on giving an overview of recent changes in Employment Law that affect employers.

Primer on Progressive HR

Developing good defensive employment in order to foster productivity, cooperation, and the employer/employee relationship in the current economy will be discussed during this session.
