**CMGMA'S Annual Meeting and
30th Anniversary Celebration!**

*Please Join Us for our
September Educational Program*

Join us for our Annual "Healthcare Year in Review." This meeting is designed to give practice managers an update on important laws, regulations, and initiatives that impact the daily operations of your practice. Back by popular demand will be Jennifer Cox who will provide an Overview of Federal Healthcare Reform, including Trends in Enforcement, a State Legislative Update, Case Law Review and The Year Ahead—What Can We Expect?

In the afternoon, Rosemarie Nelson will present "HITECH Action Plan: Optimize your EHR Implementation for Success." You will learn how best to transition your practice to meaningful use of an electronic health record (EHR). Whether you've already got an EHR or you're in the selection process, identify the steps you need to take to best meet your practice's requirements and qualify your physicians for the maximum stimulus incentives. Key issues such as transitioning workflow to meet meaningful use objectives, managing change in your practice, and setting realistic expectations and goals will include lessons learned from the field.

**September Educational
Program Speakers**

JENNIFER L. COX is an attorney with the Hartford Law Firm of Cox & Osowiecki, LLC. She provides legal and consulting services to healthcare providers on issues ranging from regulatory compliance to litigation. Jennifer is a member of the American Health Lawyers Association, the Connecticut Health Lawyers Association, the Connecticut Society for Healthcare Risk Management, the ABA Health Law Section and the Connecticut Bar Association. Jennifer is also a Trustee of the Connecticut Chapter of the National Multiple Sclerosis Society.

Jennifer has become one of our most popular speakers and as anyone who has attended knows you will walk away with more useful and practical information than you will have received at any other healthcare review.

ROSEMARIE NELSON'S experience as a medical office manager and in information technology, combined with her years of consulting to physicians and practice professionals gives her unique insight into the needs and challenges facing today's physicians and the future for medical practices. Rosemarie has established significant expertise in system implementation. Key to her qualifications and success is the business analysis method for evaluating process and needs and applying solutions to information systems applications. She has managed project implementation teams as well as software engineers in the design, implementation and training of medical practice software. Drawing upon diverse operational, clinical, and financial experience, Rosemarie provides practical solutions to assist medical groups in achieving success with their objectives.
